Dear Sirs,

I have examined the eight coins submitted by you, and as a result of my examination, do testify to their being old Egyptian Gold coins. Except in the case of the obverse side of only one of these coins, the characters are very clear and easily decipherable. From these characters I give, on the attached slip, details regarding dates, Khalifs, etc, together with the respective references from the book of the well known authority Mr. S. Lane Poole.

Yours faithfully,

Gentlemen:

We have received your favour of March 6th.  
We are not interested in any of the Mohammedan  
coins but are interested in the large silver 100-  
ticals of Siam. We take it that this is a large  
lump of silver folded over and creased. We  
should be glad to hear from you as to what price  
you would accept for this piece.

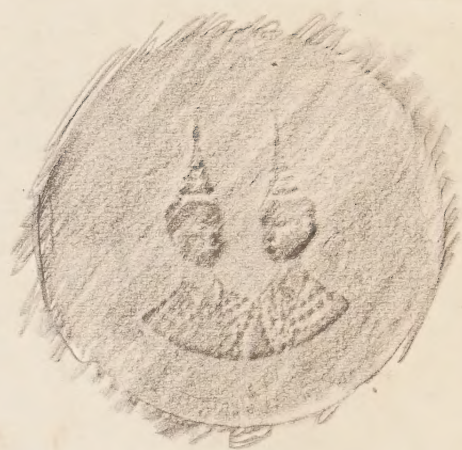

Very truly yours,

Curator

Dear Sir,

In reply to your letter of April 3rd regarding  
large Siamese Silver 100 tical piece.

We are sending you an impression of both sides  
of this coin, we must say that the lettering on the  
front of coin is very faint. We understand this  
coin to be a valuable one & possibly worth over  
five hundred dollars American.

Any how if you are interested, then please make  
us your best offer.

Hoping to hear from you.

Yours faithfully,

Gentlemen:

Your favour of July 3rd at hand. I beg to advise that we are not interested in the Siamese silver 100-tical piece. This, to our mind, is a medal of the weight of one hundred ticals. What we had in mind were the old lumplike pieces which occasionally do come of that weight.

Very truly yours,

Curator
